

## Airport Office Center

### More Space for Your Office Ideas

New, premium offices at Frankfurt Airport City offer you full possibilities for flexible organization, with the option of independently marketing them.

The many advantages of the new Office Center include:

- Its excellent location near Terminal 2, letting you enjoy the many advantages of the Airport City
- Up to 38,000 square meters of rentable space
- Excellently equipped, flexibly customizable offices
- Independent marketing of individual units
- Direct access to underground parking
- About 20 outdoor VIP parking spaces
- The building's energy-efficient architecture

### Current status of architectural competition

Shown here are design solutions by schneider + schumacher and Albert Speer & Partner. These are the two short-listed designs:

An eye catcher from all sides: The new Airport Office Center as designed by schneider + schumacher Architekturgesellschaft mbH.

Albert Speer & Partner GmbH's design makes two sculptural structures connected by a glass enclosed hall the showpiece of the building.
