

Corporate Parking

The company card that covers several vehicles.

Corporate Parking means greater convenience and lower parking costs. It frequently happens that several of your employees need a parking space several times a month. Our scheme caters for this, it offers companies and frequent travelers the possibility of renting specific parking places on a permanent basis. And what's more - the Corporate Parking Card can be registered for several company vehicles. This ensures that you make good use of the parking space, and save a lot of money into the bargain.

Because with the Corporate Parking Card you pay only Euro 198.00 plus V.A.T. per month – a saving on the regular charges after just three 3-day business trips. And you enjoy the benefit of especially convenient parking places. You park directly at the entrance to the terminal, have no need to look for a parking space, quickly reach your gate or the IEC express train, under cover, with only a short distance to walk and on the way home there's no waiting at the machines to pay.

If you have further questions concerning Corporate Parking or would like an individual quote, our parking management staff are available Monday to Friday from 8 a.m. to 5 p.m.
