

Facts & figures

An Overview of Frankfurt Airport City: a Business Location with Excellent Prospects.

Frankfurt Airport City, covering an area of 20 million square meters, is a business location of superlatives. By doing business in this city at Europe's heart, you derive diverse benefits. It's the ideal platform for driving your business success and a location with a glowing future. The airport's operator, Fraport AG, possesses many years of experience running this and other airports and offers its customers a vast array of tailored business models: from leasing of offices and airfreight handling areas all the way to operating the trendiest shops and restaurants. And with innovative concepts and long-term plans, Fraport is making sure that this location retains and increases its attractiveness.

Frankfurt Airport is one of the world's most important air traffic hubs, ranking among the top ten in terms of passenger and cargo volumes. Every year, over 52 passengers from around the globe pass through this city, plus more than 15 million visitors, meeters and greeters. So far over 500 companies operating in a wide range of sectors have set up shop here, employing over 70,000 people — which makes Frankfurt Airport Germany's single largest place of work. The ease with which the airport can be reached by air, road and rail makes it ideal, ensuring maximum mobility and flexibility for this city's "residents" and their customers.

Let yourself be persuaded by the following facts — they speak for themselves!
