

Retail and Property

A perfect world of space, performance and infrastructure.

Tailored space for doing business and wide-ranging services and infrastructure make sure you reap maximum benefits from this world covering 125 hectares. CargoCity North, the main base of Lufthansa Cargo AG, and CargoCity South, where other major global players operate, are structured to optimize logistics. For example, CargoCity South is divided into a cargo center for handling services and a forwarding center that is utilized by a large number of leading forwarding agents as their central loading and distribution site. The overall infrastructure is flexibly adaptable to meet your specific requirements, and you can benefit from the perfect services of special facilities: whether we're talking about
